

a public benefit corporation

January 5, 2022 – FOR IMMEDIATE RELEASE

JACQUELINE RADEBAUGH PROMOTED TO PARTNER AND ADMITTED AS SHAREHOLDER

Jason Wiener|p.c., a public benefit corporation, is delighted to announce the promotion of Jacqueline (“zhahk-keh-LEEN”) to Partner and Shareholder. Firm Founding Partner, Jason Wiener says: “Welcoming Jacqueline to the position of Partner and Shareholder marks a major milestone for our law firm. I have led this firm as the sole shareholder for nine years. Jacqueline is my first law partner. I could not be more excited and proud of Jacqueline, whose creativity, rigor, and exemplary lawyering set an example for all of our firm’s attorneys to follow. I am particularly proud to promote as my first law partner a woman of color. Jacqueline has my full trust and confidence to help lead our firm into the future, with many exciting initiatives and dedicated practice areas.”

Since joining the firm, Jacqueline has spearheaded the firm’s Web3 practice group, notably supporting DAO entity structure and governance design, and application of the cooperative legal form. Jacqueline says: “the past couple of years have brought a whirlwind of changes and fast growth in Web3. It has been an extraordinary experience to be part of it. I am committed to continuing to support cooperatives, shared ownership entities, stakeholder groups, and DAOs to grow and plan for success.”

In addition to her Web3 practice, [Jacqueline](#) works on cooperative design and formation, employee ownership conversions, public benefit corporation formation and conversions, complex commercial transactions and contracts, employment issues, and other areas of law that support mission-driven companies and social enterprises. Jacqueline has written about her [pathway to mission driven work](#).

Of becoming Partner and Shareholder, Jacqueline says, “I am thrilled to step into this new role and honored to support our team alongside Jason. In the coming year I am excited to invest energy into team development, expanding access to legal education regarding shared ownership models, an expanded tax practice, and leadership within the bar advocating on women's issues and foreign-educated attorneys. I will be focusing my expertise on bespoke governance models in entity formation, restructuring, conversions, including phased transfer of ownership, and general counsel work for start-up and growth stage companies, and as board advisor. I plan to deepen and expand services for our tech, renewable resources and land regeneration and stewardship, service industries, and media clients.”
